

# ANKLE BRACING

## FORMFIT ANKLE BRACE

- The compression and comfort of a soft ankle with 20% more protection than a stirrup.
- Allows for normal plantar and dorsi flexion.
- Exoform's advanced design provides the compression and comfort of a soft ankle with 35% more protection than traditional stirrups.
- The strongest and the most supportive ankle brace manufactured today.
- Figure-8 heel lock strapping performs consistently unlike taping that stretches over time.

PART#	SIZE	ANKLE CIRCUMFERENCE
B-212000001	XSmall	11" – 12"
B-212000002	Small	12" – 13"
B-212000003	Medium	13" – 14"
B-212000004	Large	14" – 15"
B-212000005	XLarge	15" – 16"

**\*(Measure ankle diagonally over the base of the heel and across the ankle bone)**

- **Indication:** - Recommended for ankle injury rehabilitation/mobilization for mild to moderate sprains and strains (Grade I/II)
- **Prophylactic use:** support for chronically weak ankles

## AIRFORM® UNIVERSAL INFLATABLE STIRRUP ANKLE BRACE

Combines a full-length air bladder with a flexible shell to provide comfort, compression and support for an ankle sprain.

- Patented "Flex-Edge" delivers greater patient comfort around the ankle.
- Inflatable air bladders allow the patient and/or care giver to adjust the level of compression that leads to reduction in swelling.
- Simple to apply and adjust brace.
- Provides for medial and lateral control while allowing for normal dorsi/plantar flexion.

SIZE	PART# White - Single
Adult	80250
Youth	80251

- **Indication:** - Mild to moderate sprains
- - Strains
- - Post cast support
- - Injury prevention
- - Post-operative stabilisation of the ankle
- - Collateral ligament strains
- - Inversion and eversion injuries
- - Acute sport injuries

## ANKLE BRACING

### ADJUSTABLE ANKLE SUPPORT

- Criss-cross figure-8 strapping system.
- Stays on both sides help provide lateral support.
- Sectional design minimizes bunching.
- Breathable HydraMesh® bottom fabric panel.
- Fits either foot.
